Players probably won't be new to FPS games anymore, and this is a genre that existed a long time ago. There have also been titles in this genre that become the monument to the gaming market worldwide. Typical of them the culture series Half Life, CS:GO... at that time there are also some popular titles like Overwatch. Coming to FPS games, players will experience the feel of great shooting and participating in very fewos battles. So you're a fable in this genre of game or not? Let's come to the game that was just launched on the mobile platform, which is Bright Memory from Manufacturing FYQD Studio. Correctly speaking, this game was developed by a single person and the person who founded this company, Zeng Xiancheng. This person is both the director of FYQD Studio and the only employee of this company. Previously, the game was once very successful on the PC platform, and now the game is available on the mobile platform for players to experience. When you've played this game, it is guaranteed that the player will have a great experience with very satisfying action and excellent graphic quality. PLOT Earth in the years 2020, the scientific research organization SSC accidentally uncovered a special material capable of dying creature summary from an ancient sword. They found the sword after searching for the hideout of an antique contraks group. This surprised all the SSC scientists, who also made people in the modern era know the mysteries of ancient times. The process of investigating this sword was fine, suddenly the organization by a group of people, and those people killed the sword. These people already knew about the power of this material, and they discovered that the source of all the mysteries lied to Paul north. Exactly located in the Ground of Sky located above the North Pole, this is a country hovering over the north pole and hiding from human eyes. The player Sheila, a female fighter aircraft sent by the SSC, suspended this organization SAI. The gameplay of this game is very complex, with tactical hard meter supplements. To be able to master all these factors, the player will have to spend a lot of time. But it is not impossible to master; players only need to remember how to develop their skills and features of each skill to combine them. The game has only one most important task, which is to stop the evil organization plan and regain that ancient sword. Players will have to fight the mysterious creatures that exist in the Sky Country, they are creatures with great power because human beings have never been known before. When they rely on their skill control, players should help Sheila in her journey. The fight style of the character also depends a lot on the play gameplay. After battles and level up, players will receive skill points, and there will be a lot of skills for players to choose. Each skill will have a different requirement to be able to do. So players need to choose their skills in a reasonable way to easily use and defeat the enemy. This is quite similar to the Devil Mesh Crying game, players can freely create their battle style to use in combat. Special skills besides using weapons and swords as usual or using the cord on the left to be able to fight monsters. Sheila also has supernatural capabilities such as psychosis and exploding energy. But to use those skills to combat, the player is going to have to reach level in the demanding game. Once that is done, the player can even use time-stopping skills to destroy the haters. GRAPHICS It can be said that Bright Memory is one of the games with the best graphical level on the mobile platform today. There is not much difference when compared to the title game on the PC platform. The game uses the most advanced technology technology that is Unreal Engine 4, so the game will be sure to bring players a great experience. Along with that, it is the very very vivid effect that makes the game more awesome than ever. Bright Memory will be a game in the genre of FPS that players can't ignore.
